

## Design sewing with Lebenskleidung

On the 1st of December, just in time for the weekend and the First Advent, we will start with our **Lebenskleidung Sewcember!**

You get 10% off your fabric orders - the perfect surprise to replenish your pre-Christmas fabric supply.

You can get some nice inspirations from our design talents, who supplied us with different fabrics with the launch of our new collection & who then sewed beautiful pieces in no time at all!

Above left you can see [Jannina's](#) casual attempt to present herself and her son in a partner look - and we think that worked out great and are a little jealous of this cool dream combination! She sewed [our Nicki Velour](#) in the new color Golden Yellow.

Directly below: Verena's wind-and-weather parka, which we currently could very well use. Leading actor here is our beautiful [Genoa Corduroy in Ocher](#), which Verena sewed after a cut by Lotte & Ludwig. More information can be found [on her blog!](#)

Katharina von [Radiokopf](#) sewed our new [Corduroy Sweat](#) in Golden Yellow into a really great parka. Our cuffs in Rose and a Striped Jersey are also shown!

Our new Corduroy Sweat has another appearance: Katharina von [Tag Für Ideen](#) has spotted it in the color [Tulipwood](#) and transformed it directly into a beautiful parka for her daughter. More photos and the pattern can be found on her blog!

[Diana from Sewleo](#) sewed a pretty great hooded dress from our sweatshirt - again! - the current

season color Golden Yellow!

[Tatiana](#) picked our [Jersey in Air Marl](#) and sewed a wider cut Betula with wider cuffs - and on top of that pimped them with iron-on ABC - we think the result is terrific!

Lee, whose image we do not see here, sewed our beautiful, flowing Wool Jersey and made a classic, timeless shirt with it - the result you can admire [on her blog!](#)

We thank you and are happy about the results as always!!
