EMPRESA SOCIAL

*A group of women driven by the desire and will to excel...*

**“A Puntadas” (stitch by stitch) is the first and sole manufacturing company Made in Spain certified by GOTS throughout the entire product manufacturing process (including printing and dyeing processes).**

It was created by the Spanish non-profit organization **PRM**, a program for the reintegration of women into the labor market, and it is the fruit of the organization’s long history in the management of textile manufacturing training workshops. This social insertion enterprise, which targets women at risk of exclusion, has incorporated design and marketing from a business perspective, thus favoring their professional profile and sustainability of projects.

Our strategy focuses on equally strengthening the following marketing channels:

- TEXTILE WORK FOR FASHION COMPANIES
- CORPORATE GIFTS, CANVAS TOTE BAGS & WORKING CLOTHES
- STRATEGIC CONSULTANCY IN SUSTAINABILITY AND CSR.

We are specialized in manufacturing circular knit and woven non denim product. We can also work on denim but with a light GSM.

Our capacity is adaptable to our customers’ needs; depending on the product features we can manufacture up to 5000 units weekly.

When making samples to our customers, we supply them with a very competitive timing.

Apart from **GOTS’ certification** (Global Organic Textile Standard), which ensures organic status of materials and environmentally responsible manufacturing, we also provide a notable added value to our customers’ products with our **strong social perspective**:

- A group of women at risk of exclusion trained in textile manufacturing and with experience in production & craftsmanship.
- A team of professional designers, pattern makers and cutting specialist trained to create lines adapted to the market and/or customer demand.
- A stable trade relationship with a portfolio of international & national companies, making GOTS and non GOTS products; from small brands to huge international fashion groups including **WWF, Tempe-Grupo Inditex, Panama Jack, Cuplé, Wonders, Mustang, Grupo Pikolinos or Cus.**
- A team qualified to manage a social enterprise.

**VISION:** To train women driven by the desire and will to excel, to manufacture top-quality products that are attractive to the market, environmentally friendly and sometimes linked with cooperatives in developing countries.
